BICYCLE & HELMET INSPECTION FORM
FOR Y RIDERS CAMPS & YMCA CAMP SANTA MARIA

All campers must have this bicycle inspection form completed by a bicycle mechanic. In order to ensure participant safety, bicycles need to be properly tuned and in good working order. Most bike shops will perform this inspection for free as well as helmet checks.

During Learn to Ride camps, kids begin with pedals off. You may want to have this done when you get your bike inspection.

Camp Santa Maria has bicycles available if you cannot, or do not wish to, bring your own bicycle to camp.

Please check the following:

- Proper Fit
- Brakes
- Wheels True
- Gears / Derailleurs / Chain
- Headset
- Tires
- Hubs (cones)
- Cables
- Helmet Fit

Notes
